

NEWCASTLE FRONTRUNNERS

Health and Safety Policy

Version 2.0 August 2022

1. Background to this Policy

Newcastle Frontrunners (NFR) is a growing club with an increasingly active membership and a diverse programme of events. NFR take the health and safety of its members seriously.

The objective of this policy is to promote the health and safety of those who come into contact with NFR, through the operation of safe practices.

This policy applies to all club members, visitors or guests taking part in club training sessions. For the purpose of this policy, members, visitors and guests will be referred to as 'members'.

It is important that NFR members take responsibility for, and care of, their own health and safety.

2. Scope of this Health and Safety Policy

The scope of this Policy extends to the club's regular organised running and training sessions. It does not extend to social events, including those events taking place after training sessions.

This Policy is subordinate to any policy or procedures in place at venues used by NFR, for example, Gosforth Pool or Sport@Kenton. NFR members shall abide by any policy, rule or requirement of such venues.

This Policy does not apply to NFR members when taking part in or attending a race or other event not organised by NFR. NFR members shall abide by any, policy, rule or requirement of the organisers of that event or race.

3. Implementation and monitoring of Health and Safety Policy

- a. This policy shall be brought to the attention of all individuals when they become a member of NFR. The policy shall be deemed to have been agreed to by all members upon completion of a membership application.
- b. This policy shall be reviewed at least annually by the NFR Committee and be made available on the NFR website.
- c. The Committee shall undertake a Risk Assessment of all regular training sessions.
- d. The Risk Assessments shall be reviewed at least annually and made available as an appendix to this Policy.
- e. NFR members should report any health and safety issues that they may be aware of to the NFR Welfare Officers or any Committee Member; whereupon they will be reported to the Committee and acted upon as necessary and as soon as is reasonably practicable.
- f. NFR Members should report any incident or accident that they are involved in to the NFR Welfare Officers or any Committee Member; whereupon they will be reported to the Committee and acted upon as necessary and as soon as is reasonably practicable.
- g. The NFR Committee shall maintain a register of incidents/accidents. The Committee shall investigate any incident/accident deemed to be serious. The Committee shall report thereafter and take any action that may be considered necessary. Where necessary, specialist advice will be sought from expert bodies, for example, England Athletics, UK Athletics.
- h. Health and Safety matters shall be considered at each Committee Meeting.

In particular, the following matters shall be considered:

- i. Any reported incidents or accidents;
- ii. Any work or actions required to comply with the Risk Assessments;
- iii. Any other health and safety information received from UKA or any statutory body;
- iv. Any other relevant Health and Safety issue.

4. Members' Responsibilities and Duties

- a. Members should familiarise themselves with this Policy and the Risk Assessment Documents referred to. Members should follow the guidelines and the processes outlined in the Risk Assessment Documents.

- b. Before embarking on a training session, members shall be considered to have declared themselves medically fit and shall not hold NFR responsible for any incident occurring through a personal medical condition or injury.
- c. Before embarking on a training session, members should take part in the group briefing. Members should ensure the run Coach or Leader is made aware of any pre-existing injury or relevant Health and Safety issue.
- d. Members should ensure that they warm up and cool down adequately for any training session.
- e. Members should stay alert and be aware of their surroundings during training sessions.
- f. Members should follow the guidance of Coaches and Leaders when taking part in training sessions.
- g. Members should wear appropriate clothing and shoes during training sessions. Members should wear high visibility/reflective clothing when running during dusk or darkness. Headphones should not be worn during training sessions.
- h. When running in a group, members should start together and finish together. Members at the front of the group should 'loop' back at appropriate times to run with those at the rear of a group. If a member needs to leave a run early, they should let the group leaders know before doing so.
- i. Members should always exercise due care when crossing roads. Members should wait for traffic to pass when crossing roads.
- j. Members should run on a footpath or pavement where possible. Where there is no suitable footpath or where circumstances demand that they have to run on the road, members should always run facing the oncoming traffic or run on the left on bends where forward visibility to the right is limited.
- k. Members should take particular care when running in tight groups, up and down stairs or on uneven surfaces. Members should be aware of tripping hazards such as tree routes and slippery paths. Members should exercise care when running in snowy, icy or wet conditions.
- l. Members are encouraged to carry a mobile phone when running so that they can contact emergency services in an emergency situation.
- m. Members taking part in Strength and Conditioning sessions or other sessions requiring equipment, should at all times follow the guidance of Coaches and Leaders when using that equipment.
